

Business Sales Performance Analytics TASK 1

Objective

Analyze business sales data to identify revenue trends, top-performing products, and regional performance.

Tools Used

- Tableau
- CSV Dataset (Online Retail)

Key Findings

- Total Revenue: 9,747,748
- Total Orders: 22,061
- Revenue peaked in November 2011.
- DOTCOM POSTAGE was the top revenue-generating product.
- United Kingdom generated the highest revenue.
- Top-selling products were largely gift and home décor related.

Recommendations

- Increase inventory before peak demand periods.
- Focus marketing on top-performing products.
- Expand sales efforts beyond the UK.
- Improve customer retention through targeted campaigns.

Conclusion

The analysis revealed strong seasonal sales patterns, a concentration of revenue in the UK market, and a small set of products driving significant revenue.
